

ALEJANDRO MONTORO

Front-End Developer

ABOUT ME

I'm a motivated and highly knowledgeable **Front-End Developer**, proficient in **HTML5**, **CSS3**, **JavaScript**, and modern JS libraries such as **React**.

Despite being at the beginning of my professional journey, I have invested significant time in mastering these languages and tools to ensure a solid foundational understanding of web development.

I've proven my abilities through various personal and academic projects, demonstrating not only a knack for coding but also a creative and keen eye for design. I am continuously seeking to keep up with the latest trends in web development to stay at the forefront of the industry.

Recognized for my problem-solving skills and ability to work effectively both independently and in team settings, I am enthusiastic about bringing my fresh perspective to a professional team. Eager to apply my knowledge in a practical setting and grow further as a Front End Developer.

EXPERIENCE

Grupo Alsea | Shop Manager
2019 - 2020

As a Shop Manager for the past year, I've overseen daily operations, and effectively led a team. I've demonstrated strong skills in inventory management, and customer service. This experience has honed my retail management skills, and I am eager to apply them to new challenges.

Grupo Alsea | Shift & People Manager
2016 - 2019

As a Shift and People Manager, I've efficiently coordinated daily operations while fostering a positive work environment for my team. My ability to balance task delegation, employee scheduling, and performance management has consistently ensured operational efficiency and high team morale. With a focus on both process and people, I've proven my capabilities in optimizing resources, and improving productivity.

Grupo Alsea | Cook
2014 - 2016
